Century Therapeutics to Host Virtual Research and Development Day on November 11, 2022

November 2, 2022

PHILADELPHIA, Nov. 02, 2022 (GLOBE NEWSWIRE) -- **Century Therapeutics** (NASDAQ: IPSC), an innovative biotechnology company developing induced pluripotent stem cell (iPSC)-derived cell therapies in immuno-oncology, today announced that it will host a virtual Research and Development (R&D) Day on Friday, November 11, 2022, from 8:00 AM to 9:30 AM ET.

The R&D Day will feature presentations from the Company's management team and Jonathan Rosenberg, M.D., Chief of the Genitourinary Oncology Service at the Memorial Sloan Kettering Cancer Center (MSKCC), Physician at Memorial Hospital at MSKCC, and Professor of Medicine at Weill Cornell Medical College. The event will focus on the Company's solid tumor strategy and gamma delta iT cell platform, including a discussion on preclinical data to be presented at the Society for Immunotherapy of Cancer (SITC) 37th Annual Meeting.

For additional information on how to access the event, please visit the **Events & Presentations** section of Century's website.

About Century Therapeutics
Century Therapeutics (NASDAQ: IPSC) is harnessing the power of adult stem cells to develop curative cell therapy products for cancer that we believe will allow us to overcome the limitations of first-generation cell therapies. Our genetically engineered, iPSC-derived iNK and iT cell product candidates are designed to specifically target hematologic and solid tumor cancers. We are leveraging our expertise in cellular reprogramming, genetic engineering, and manufacturing to develop therapies with the potential to overcome many of the challenges inherent to cell therapy and provide a significant advantage over existing cell therapy technologies. We believe our commitment to developing off-the-shelf cell therapies will expand patient access and provide an unparalleled opportunity to advance the course of cancer care.
